The Board of Directors has the final decision regarding the acceptance or rejection of an individual's membership application to join the Club.

All dues and fees must be paid before a member can vote in a General Meeting or be elected to any office. Failure to pay the annual application fee will result in the delinquent member not only losing their membership but also the cancellation of their Authorization to Transport within 30 days of the General Meeting.

It is the responsibility of each member to ensure that his or her personal information and Authorization to Transport are current and up-to-date.

Minors' 12 to 17 years old can use firearms at the Club, only under the direct and immediate supervision of a licensed adult. This means that the licensed person must be close enough to the young person to be able to take any action necessary to prevent the minor from doing anything with the firearm that is unsafe or against the law.

Junior members can bring a guest to the Club but the guest is not allowed to handle or shoot any firearm.

It is the responsibility of every member to ensure that any guest/visitor they bring to the Club is not under the influence of alcohol or drugs, suffering from a mental condition, or are on medication for a mental disorder, and **especially that they are not under a court order prohibiting them from owning or using firearms.**

The new member is virtually a lost soul in any organization. Members are encouraged to make new members as comfortable and welcome as possible in their new surroundings and try to encourage the new shooter's interest and progress. Why not start by getting to know each other's names?

The applicant will be required to complete the following:

- Be instructed in the safe use of firearms, proper range procedure, basic marksmanship, and the Club Rules and Regulations and Code of Conduct.

The new member should be made aware of the fact that during the probationary period their conduct at the Club will determine whether they will be granted a full membership in the Club.

9. Authorization to Transport*

All Members of The Brant Revolver and Rifle Club Inc. must have their Authorization to Transport through The Brant Revolver and Rifle Club Inc.

The Brant Revolver and Rifle Club Inc. must be listed as the primary club with all applicable agencies.

It should also be noted by the membership that the Authorization to Transport expires with your Firearms License (PAL). Once you have received your new PAL and have it in your possession it is your responsibility to inform the Club in order to obtain a new Authorization to Transport.

No member will transport a handgun or other restricted firearm to or from the Club without a valid Authorization to Transport Permit.

An Authorization to Transport Permit is issued though the Club only after a person has completed their Introductory Course.

The CFO has changed the terms and conditions on the Authorization to Transport. All new ATT's now allow the holder to only transport their firearm to the Club listed on the permit. This also allows someone who has an ATT through one club to transport their firearms to any club they are a current member of. Otherwise they must obtain from all other shooting clubs an invitation to the host club. If transporting your firearm to a club by invitation you are required to have written proof of the invitation to the host club and must be able to provide proof if asked by the CFO or the police.

Members are required to attend the Club as per CFO's policy to retain their ATT.

The renewal of the Authorization to Transport Permit is the sole responsibility of each and every Club member. **The Executive is not there to remind you to renew your permit.**

It is your responsibility to find out if your permit has arrived at the Club and to make arrangements to pick it up.

*As Per Current Legislation

10. Infractions and Disciplinary Measures

It is the responsibility of every member to report any infraction of the Safety Rules, Regulations and the Code of Conduct to the Officers of the Club.

Any member, whose conduct is detrimental to the interest of the Club, or who violates the Regulations of the Club, may have his or her privileges temporarily suspended by any Officer of the Club.

Members observed doing inappropriate actions, damaging Club property, using unauthorized targets or engaging in actions not applicable to the type of shooting they are engaged in will receive a warning letter and a copy will be kept on file of the incident.

Any repetition of the incident will result in suspension of privileges for a specified period of time determined by the Board of Directors. The Board of Directors may if they feel the member will not comply with the Regulation's remove the member from the Club.

If any member witnesses an incident and then fails to report, the incident to an Officer of the Club will be considered as guilty of the infraction as the person that caused it. The member could then be subject to disciplinary sanctions.

Any member that fails to ensure their guest/visitor has filled out both sides of the waiver and has checked that the information is correct will be held responsible. The member will face disciplinary action.

The Board of Directors has the responsibility to terminate an individual's membership for cause at any time.

11. Sign In Policy

In a clear legible manner, all Members, Visitors and Guests must sign in.

Members must enter their Membership Number **in the sign in ledger.**

If they bring a guest, they must print guests and how many beside the Members Number in the ledger.

All guests/visitors must fill out the waiver form (see appendixes) on both side and the member must sign their membership number on the form in the place provided. The form then is put into the lock box on the sign-in table.

The member is to insure that the form is filled out correctly on both sides. **This is not an option.** If any guest/visitor does not fill out or refuses to fill out the waiver they **will not be allowed to enter the Range.**

The waiver must be filled out every time a guest/visitor enters the Club.

If this policy is not followed by the member they will be held responsible and can face disciplinary action up to and including expulsion from the Club.

12. Guests and Visitors

Members are encouraged to bring visitors and guests to see the facilities. You the member are solely responsible for all of your guest's actions while they are at the Club and are responsible to ensure that they conduct themselves in accordance with all the Safety Rules and the Code of Conduct. You must accompany the guests/visitor at all times.

If a member brings a guest they must print **guests** and how many beside the members number in the ledger.

All guests and visitors must fill out and complete both sides of the waiver form each and every time they come to the Club located by the sign in book. The member is required to check the form and insure all parts are filled out including the space for the members name or number. This is not an option on the part of the guest/visitor or the member. If this policy is not followed the member will be held responsible and can face disciplinary action up to and including expulsion from the Club.

Guests may be brought to the Club for up to three visits per year where they will be allowed to use firearms under the direct supervision of the member. If the member brings in more than one guest all of them must remain behind the yellow line while the member directly supervises the one that is using the firearm.

The guest must not unduly occupy a range station while members are waiting to shoot. The member takes priority over any guest or visitor.

Guests can shoot only from the middle set of ports. No target can be closer than 8 meters. All targets must be approved paper targets.

Under no circumstances are guest/visitors or members allowed to handle any firearm in the lounge area of the Club.

13. Controlled Access Entry System

The Club has in place a Controlled Access Entry System. This system controls the access times of Members to the Club through a coded key.

Access times and conditions will be determined exclusively by the Board of Directors and are subject to regular review.

Use of the key does not relieve the Member of the obligation to sign the sign in ledger. If a Member does not sign in (or refuses to sign in) they will not be allowed to participate at the Club. This also applies to all Visitors and Guests that come to the Club.

The member is responsible for how their entry key is used. No member may give their key to another person especially a non member of the Club. If they do, they will be expelled from the Club.

Every Member of the Club, if they want, a key will pay \$40.00 for a key. Replacement keys are available at a cost of \$20.00 in case of loss.

New Members will have to complete the Introductory Course before they can apply to get an entry key. The key will be issued upon payment of the fee. **The fee is non refundable.**

14. Video Monitoring

The Club has in place a 24-hour video monitoring system to record the activities that take place on the premises. The Board of Directors reserves the right to randomly access the system whenever they deem necessary for the safety of the membership or club property.

15. Use of Club for Other Purposes

Unfortunately due to the Club insurance and other regulations it is not possible for the Club to allow the premises to be use by outside groups or organization.

16. Rules and Regulations

Range Officers

Will see that all persons in the Range adhere to the Safety Regulations, Code of Conduct and that the current rules for each shooting discipline are followed.

Any Range Officer, at his/her discretion may order a person from the Club premises if he deems that person's conduct detrimental to the safety of members, others, or the property of the Club.

Will open the range for shooting purposes, and will see that ammunition and equipment is put away, lights out and doors locked at the end of each shooting session.

If no Range Officer is present, each and every member who enters the Club premises will be held responsible for ensuring that the Club is in good order and secure at the end of their shooting session.

During unscheduled hours a Range Officer must be appointed by mutual consent of all members present. This person shall be deemed to have the powers of a regular Range Officer.

17. RANGE SAFETY REGULATIONS

No Firearm is to be handled in the lounge area.

Any ruling by the Chief Range Officer or those appointed by him is final.

The Chief Range Officer must approve all Firearms, used in the Club.

All persons must wear appropriate EYE and EAR PROTECTION in the shooting area.

Any accident that requires medical attention must be reported to the Board of Directors as soon as possible.

The green safety light must be turned on whenever the Range is open and no shooting is taking place. No one may be forward of the yellow firing line or at the shooting ports when the green safety light is on.

The red safety light must be on at all times whenever shooting is taking place and under no circumstances is anyone to be downrange.

Each Individual member of the Club can within the Rules and Regulations of the Club shoot on their own (see the Club's Policy on Use of the Range). All shooting must be done from the shooting ports. The only exception will be for sanctioned matches and training courses held at the Club.

Everyone who enters the Club must Sign-In and any guests/visitors must fill out both sides of the waiver form and put it in the lock box. Anyone that refuses will not be allowed to participate in club shooting events.

All Firearms brought into the Club must be put into or removed from their carrying cases in one of the following ways: **No Firearm may be handled in the lounge area.**

- The cased firearm is taken to the designated Safety Zone. There, the firearm is removed from its carrying case, rendered safe and then carried unloaded and completely clear of ammunition to the firing line. If the shooter intends to use the Safety Zone to case his or her firearm, when finished shooting, then the firearm must be unloaded and completely clear of ammunition, before it is carried from the firing line to the Safety Zone, to be put in its case. **No Ammunition is allowed in the Safety Zone.**

- The cased firearm is taken directly to the shooting position at the firing line. Facing downrange, the firearm is then removed from its carrying case, rendered safe by opening the action and placing the firearm on the shooting position bench, with the barrel pointing downrange. When the shooter is finished shooting, they must clear their firearm, render it safe, and then, put the firearm in its case before leaving the shooting position with the firearm.

Any firearm that requires maintenance will be taken to the designated Safety Zone.

Do not handle any firearm other than your own without permission.

Do not handle, point or look over the sights of any firearm unless you open it and make sure that it is unloaded. Do not look hurriedly and decide that it is unloaded. **LOOK ONCE, then LOOK AGAIN and MAKE SURE. REGARD EVERY FIREARM AS LOADED.**

Under no circumstances may any pictures, representations of persons, groups, logos etc. be used as a target on the Range.

No target may be closer than 8 metres to all shooting ports. Shooting can only be from a single shooting port lane.

Do not load your firearm unless you are at the firing line and facing the targets.

NEVER put your finger on the trigger unless you are ready to shoot.

Firearms must always be pointed in a safe direction.

If your firearm misfires, keep the muzzle pointed at the target while you count to ten, as it could have a delayed discharge and cause an accident. Then remove the defective cartridge and place in the defective ammunition can.

If for any reason you leave the firing line, you must unload your firearm, open the action, leave it open, and place the firearm down on the bench with the barrel pointing down range before leaving the firing line.

Do not speak to or disturb any shooter until he or she has completed their target. Of course, range commands and coaching are exceptions.

Do not carry your firearm **LOADED** to and from the Club. Firearms must be transported in accordance with current legislation.

Put rifles in the stands with the breech open when not in use.

The firearm is loaded only on the command of the Range Officer or when the firearm is in use on the Range during practice.

Always keep the firearm in its container and in a secure place when not in use on the firing line.

Steel targets cannot be used unless supervised by a Range Officer and must be placed at the backstop.

Any member or guest of a member whose conduct is detrimental to the interest of the Club or who violates the Safety Regulations of the Club may have his or her privileges temporarily suspended by any Officer of the Club.

Remember the “Vital Four” Rules of Firearms Safety

Regard every firearm as loaded.

Always assume that a firearm is loaded until you have personally checked it.

Regard any firearm as a potential hazard even though you see a person handling it safely.

Control the Muzzle direction at all times.

Continually identify the safest muzzle direction and keep your firearm pointed that way.

Only point a firearm at a practice or sport target that you intend to shoot.

The muzzle of a firearm should not be pointed toward you or any other person.

Keep your finger off the trigger except when firing.

Resist the temptation to put your finger on the trigger when you pick up or hold a firearm.

Accidental discharges will far more likely occur if your finger is on the trigger.

Open the action and check that there is no ammunition in the firearm.

Every time you handle a firearm, for any reason, check to see that both chamber and magazine are empty.

Pass or accept only open and unloaded firearms. This is an important habit to develop.

APPENDIX
